

How to Get Set Up with an Adobe ID & Adobe Digital Editions

Why should I create an Adobe ID?

Our eBooks contain Adobe Digital Rights Management (DRM), the recognised industry standard within the eBook marketplace. DRM is used to help prevent software piracy. It works by permanently linking an owner's device with purchased digital content so that it cannot be copied and distributed illegally. This protects both the buyer and the publisher. The person who has purchased the content may copy it to any six compatible devices they own. You will not be allowed to read your eBooks unless you are logged in and your device has been authorised.

Creating an Adobe ID account

To start, visit <https://accounts.adobe.com/uk/> to create an Adobe ID. Click the [Not a member yet? Get an Adobe ID] link (see below).

Adobe ID

FOR YOUR PROTECTION, PLEASE VERIFY YOUR IDENTITY.

Email address

Password

[Forgot password?](#)

SIGN IN

Not a member yet? [Get an Adobe ID](#)

Want to use your company or school account?
[Sign in with an Enterprise ID](#)

 Secure Server
[Tell me more](#)

One Adobe account. Infinite possibilities.

   

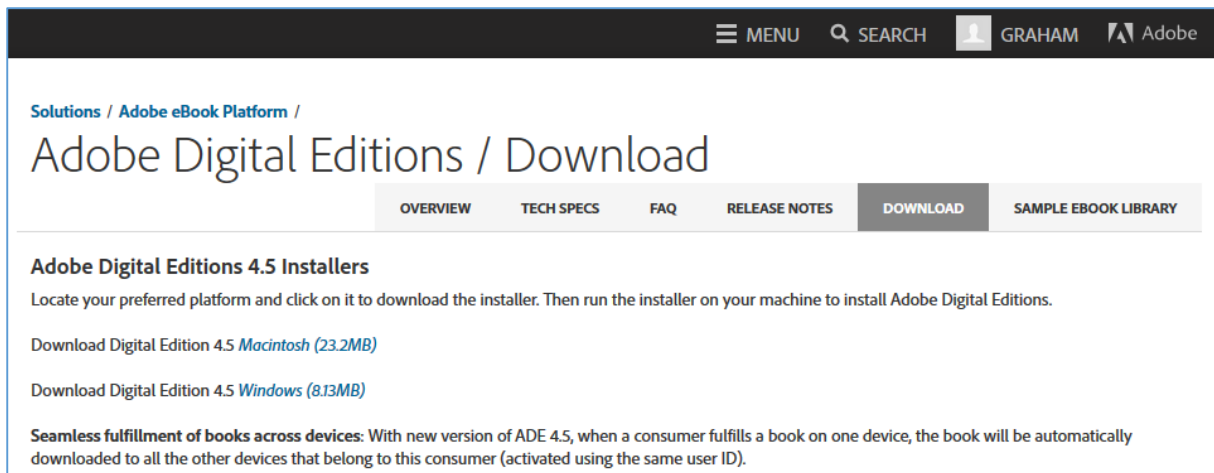

Enter your details in the relevant boxes and then click the [Sign Up] button at the bottom of the page and your account will be created. You will then receive an e-mail from Adobe and they will ask you to verify your registration.

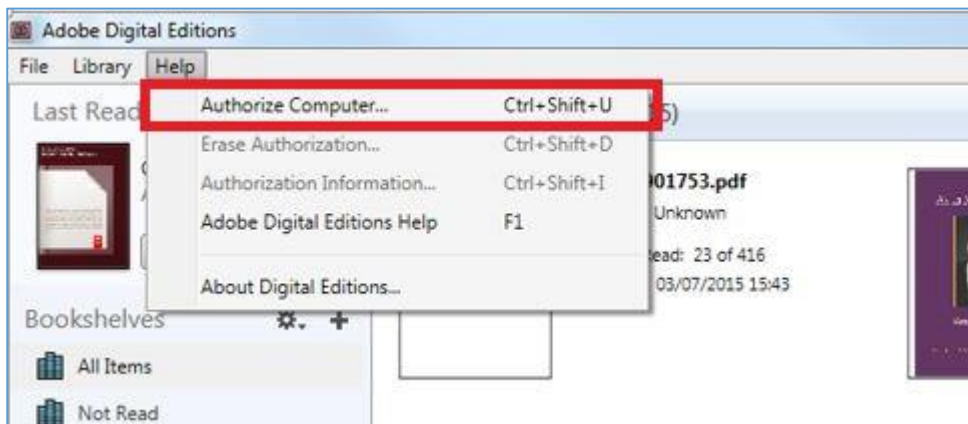

Reading eBooks on a PC or Mac

Downloading Adobe Digital Editions

Visit the Adobe Website (<http://www.adobe.com/solutions/ebook/digital-editions/download.html>) and click the link (PC or Mac depending on your system requirements) to download Adobe Digital Editions (see below).

When the Adobe Digital Editions download is complete, launch it and authorise your Computer with your Adobe ID (see below).

Once completed, you can click the link in your e-mail and to start the eBook download. When you are prompted with what to do with the file, please select run, and Adobe Digital Editions should start automatically downloading your eBook.

Reading eBooks on a Tablet

We recommend downloading BlueFire as your eBook reader on your phone or tablet. Download it from your App store and you will be prompted to enter an Adobe ID when you start up the App.
