A photograph of the Merlion fountain in Singapore. The central focus is the white Merlion statue, a mythical creature with the head of a lion and the tail of a fish, which is spouting a powerful jet of water into the air. The water falls into a pool at the base of the statue, creating a large splash. In the background, there are several palm trees and a large, multi-story building with a red roof and classical architectural features. People can be seen sitting on a ledge in the mid-ground, and a bridge with a railing is visible behind the fountain. The overall scene is bright and clear.

## MAJOR NEW TITLES THIS MONTH

Ali, Paul, *Secured Finance Transactions: Key Assets and Emerging Markets*, Globe Business, HB, £115.00, ISBN: 9781905783106

This new title takes a practical approach to security interests and has been designed with the practitioner in mind. With contributions from leading experts, *Secured Finance Transactions: Key Assets and Emerging Markets* provides an indispensable guide to important legal developments in the field of secured finance, the taking of security interests over key business assets, the legal framework for security interests in emerging markets

Allison, John, *The English Historical Constitution: Continuity, Change and European Effects*, Cambridge Univ Press, PB, £18.99, ISBN: 9780521702362

The fundamental legal and institutional changes of recent decades have brought the English constitution into question. Accompanying issues have been the extent to which its traditional character and main features have been changed, lost their former appeal and retained their distinctness in the European Union. These issues are not

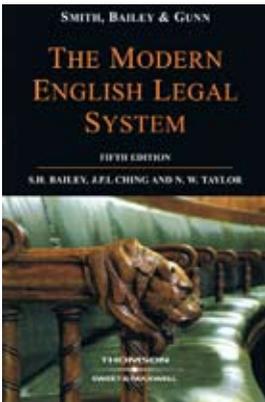

readily addressed in everyday thinking about a constitution simply conceived as unwritten or in constitutional accounts variously preoccupied with abstract analysis, political accountability or transcendent norms. *The English Historical Constitution* addresses these issues by developing a historical constitutional approach and thus elaborating on continuity and change in the constitution's main doctrines and institutions. From an English legal perspective, it offers a complement or corrective to analytical, political and normative approaches by reforming an old conception of the historical constitution and of its history, partly obscured and long neglected through the modern analytical preoccupation with its law as an abstract scheme of rules, principles and practices.

## MAJOR NEW TITLES THIS MONTH – *Continued*

9781905017393

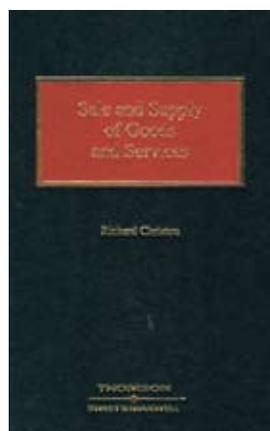

In this book the author explores the limits of the concept of State Immunity as it relates to both jurisdiction and execution against state property in arbitration cases. A similar survey of state practice relating to waiver, both express and implied, of immunity from jurisdiction and the relevant rules of arbitration institutions such as the ICC also illustrate a trend towards shrinking immunity.

Lang, Michael; Schuch, Josef and Staringer, Claus, *Tax Treaty Law and EC Law*, Kluwer Law Int'l, HB, £82.00, ISBN: 9789041126290

There is an immense tax treaty network between European Union Member States and third countries. These tax treaties are bilateral conventions, governed by international law. At the same time, these agreements are part of the internal law of the various Member States.

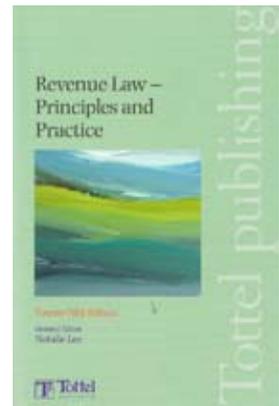

European Community (EC) law has supremacy over domestic law and, therefore, over tax treaties as well. Consequently tax treaties must conform with EC law. This book examines the areas of tension between EC law and tax treaty law. Since most rules of primary and secondary law are directly applicable, they can substantially impact the implementation of tax treaty provisions and consequently result in serious practical ramifications. As part of its analysis this work devotes particular attention to the growing number of decisions of the European Court of Justice concerning fundamental freedoms and direct taxation. Thus, this book provides an up-to-date and comprehensive analysis of the interaction of national tax law, double tax treaties, and the EC Treaty.

Lowe, Vaughan, *International Law (Clarendon Law Series)*, Oxford Univ Press, PB, £19.99, ISBN: 9780199268849

The opening chapters of the book explain how international law underpins the international political and economic system by establishing the basic principle of the independence of States, and their right to choose their own political, economic,

and cultural systems. Subsequent chapters then focus on considerations that limit national freedom of choice (e.g. human rights, the interconnected global economy, the environment). Through the organizing concepts of territory, sovereignty, and jurisdiction the book shows how international law seeks to achieve an established set of principles according to which the power to make and enforce policies is distributed among States.

The book adopts a practical approach and explains psychologi-

This book presents an integrated approach to general questions of European administrative law and offers some possible solutions to the problems which it poses, the Treaty establishing a Constitution for Europe being the main point of reference. Under the Treaty general questions of administrative law are no longer addressed merely in a fragmented or incidental way but as a discipline that governs the exercise of sovereign

powers by a supranational entity. This calls for a detailed examination of the fields which comprise European administrative law and the book therefore examines in some detail the key areas of rulemaking powers and normative instruments, the implications of the Charter of Fundamental Rights for European and national administrations, administrative procedure, and judicial protection within the European Union.

The International Criminal Court has ushered in a new era in the protection of human rights. Protecting against genocide, crimes against humanity and war crimes, the Court acts when national justice systems are unwilling or unable to do so. This third edition of this seminal text on the Court considers it in action: its initial rulings by the Pre-Trial Chambers and the Appeals Chamber and those cases it is prosecuting as well as those where it had decided not to proceed, such as Iraq. It also explores the law of the Court up to and including its ruling on a confirmation hearing.

**Nigel Fry**

We are delighted to announce that Nigel Fry joined Wildy and Sons Ltd in June of this year. After several months working with us here in London to assimilate himself with our service standards, stock and software systems, he is now back on the road as a Regional Accounts Manager visiting customers in the East Midlands area. Nigel will also be visiting customers in the Leeds and Birmingham area from time to time.

Nigel brings with him seventeen years experience in legal bookselling as an Account Manager for Longman Law, Tax & Finance from 1990-1995 and more recently as a Hammicks Legal Account Manager from 1995-2007. As many of you will know Nigel has a very *laid back* attitude preferring to offer advice and assistance to librarians and solicitors, rather than to give a hard sell, as is so often the norm..

Nigel was a keen sportsman in his younger days competing at Football, Rugby, Cricket, Tennis and Judo and is now an avid supporter of local football team Cogenhoe United under 13 s for which his son Harry is an industrious mid-fielder! He ran the London Marathon in 2001 but has no immediate plans to repeat it!

He is a semi-professional musician playing 20/30 gigs a year in an acoustic-rock duo and producing numerous CDs. A recent 2 year excursion back into higher education earned him a diploma in Religious Studies from the Open University and he hopes to complete his BA before senility takes over!

**During 2008**, Wildy's will be expanding our regional representation as part of our on going drive to bring standards of service not previously experienced when using alternative suppliers. For further information, please ring 0207 242 5778 or visit our website [www.wildy.com](http://www.wildy.com)

## Leonie Asgarali

It is with much regret that we have to report death of Leonie Asgarali, who had retired last year from the Hugh Wooding Law School, where she had been the libraian since its inception in the early 80's.

It was Leonie who invited me to attend my first CARALL (Caribbean Association of Law Librarians) conference back in 1999. The picture above shows Leonie with an award presented by CARALL in recognition of her as a valued founder member of the Association. I am sure her presence will be missed at next years meeting in Jamaica.

On behalf of everyone at Wildy & Sons Ltd I would like to offer our deepest sympathies to Cynthia Birch her sister, and her two sons Regan & Stefan Asgarali

## The International Bar Association Conference 2007 Singapore Sunday 14<sup>th</sup> – Friday 19<sup>th</sup> of October

This year's annual conference was held in the Suntec City complex, situated in the Downtown Core area of Singapore. This is an amazing complex with a vast exhibition area, an auditorium and many smaller suites for meetings and other functions. Beneath the complex are more than 360 brand name shops, restaurants and other services, making it a perfect location for conferences and conventions of any size. The area is also adjacent to other shopping malls and modern hotels.

There were more than 40 trade exhibitors in attendance, including legal publishers and other connected services of interest from around the world, but Steven Ross and John Sinkins on behalf of Wildy and Sons were the only booksellers present. With over 4000 delegates in attendance, it is hardly surprising that we were extremely busy from the start, welcoming customers of old and explaining our goods and services to new ones.

The guest speaker at the opening ceremony on the Monday evening was Lee Kuan Yew. Singapore's first Prime Minister and very much the architect of today's modern and thriving city-state of Singapore. He gave us all a fascinating and charismatic welcoming speech. Following this a party was held at the famous Raffles Hotel, which was taken over in its entirety

for the evening by the IBA. This was a wonderful opportunity to meet delegates in a more relaxed and pleasant atmosphere.

Other evenings were spent socialising privately with some of the other exhibitors. Singapore has every type of bar and restaurant you can possibly imagine. The 'Docklands' areas of Clarke Quay and the Boat Quay are full of life and being able to sit beside the bustling waterfront having a meal in the evenings was an excellent way to relax after a long and busy day.

Special thanks should be given to Andrew Webster-Dunn of the IBA. His tireless attention to detail, both before and during the exhibition, ensured that everything ran like clockwork from start to finish

This was the best and most successful IBA conference ever for Wildy and Sons. Singapore is a truly remarkable place, although you never quite get used to the all engulfing and strength sapping humidity, 99% of everything man made is thankfully air-conditioned!

### **Construction Adjudication**

by Peter Coulson, QC

Oxford University Press, Hardcover, ISBN 9780199235506, £145.00, due December 2007

This is the first comprehensive text book to deal with the law and practice of adjudication in construction and engineering disputes. The Housing Grants, Construction and Regeneration Act 1996 introduced adjudication as a new and compulsory form of dispute resolution mechanism in construction contracts, pursuant to which all disputes will be decided in 28 days by an adjudicator, whose decision then remains binding and enforceable, unless and until it is challenged in court or arbitration. There have been tens of thousands of such adjudications in the decade since the Act came into force, and nearly 300 reported judgements, as the Technology & Construction Court and the Court of Appeal have set out guidance to the parties (and the adjudicators) on the proper approach to the running of an adjudication and the legal effect and status of the adjudicator's de-

cision. The volume of such cases, and the constant refining of the relevant principles by the courts, has meant that it is only now possible for a detailed work on this subject to be prepared. This textbook analyses all these decisions under clear headings, and explains the scope and limits of an adjudicator's jurisdiction. It also includes a section full of practical advice to parties and to adjudicators as to how they can ensure a successful adjudication. Written by a Senior Circuit judge, who sits full time in the Technology and Construction Court, *Construction Adjudication* provides the first authoritative and up to date text which will be of invaluable help to all those involved in the adjudication process.

by Stephen Bickford-Smith,  
Nicholas Taggart and Alison  
Oakes

Jordan Publishing, Softcover, ISBN 9780853088523, £60.00, due December 2007  
Private Rights of Way are a form of easement enjoyed by one owner of land over land in the ownership of another. Problems often occur when someone blocks or restricts a right of way, or where one of the parties wishes to change the route of the right of way, or when the properties affected are transferred. Disputes over the maintenance of the right of way are also common.

This new work sets out the law and practice relating to the creation, acquisition, maintenance, extinguishment, and remedies for wrongful interference with private right of way. In addition guidance is given on practical drafting issues as well as evidence and procedure, together with precedents. Relevant statutory provisions in an updated form are included in the appendix.

## **A Practical Approach to Planning Law 10<sup>th</sup> edition**

by Victor Moore

Oxford University Press, Softcover, ISBN 9780199532117, £34.95, due December 2007  
Despite repeated attempts in recent years to simplify the

planning system, planning law has continued to be so complex that practitioners and students alike have found it difficult to disentangle the complicated issues and principles involved. The tenth edition of Victor Moore's popular and accessible book aims to remove the mystery and difficulty which planning law presents to so many people. This new edition contains expanded coverage of the Planning and Compulsory Purchase Act 2004, exploring the implementation of what is arguably the most significant planning legislation since the present system of planning control was introduced by the Town and Country Planning Act 1947. The Act replaced much of the old planning regime, giving central government a larger say over planning decisions. In particular, in place of the development plan system that was in place, it introduced the concept of a Regional Spatial Strategy (RSS) for each region in the country and Development Plan Documents. This means that local planning authorities will be denied the opportunity they may once have had to avoid complying with central government targets (e.g. those aimed at new house building in their area). Regional Planning Bodies are charged with keeping

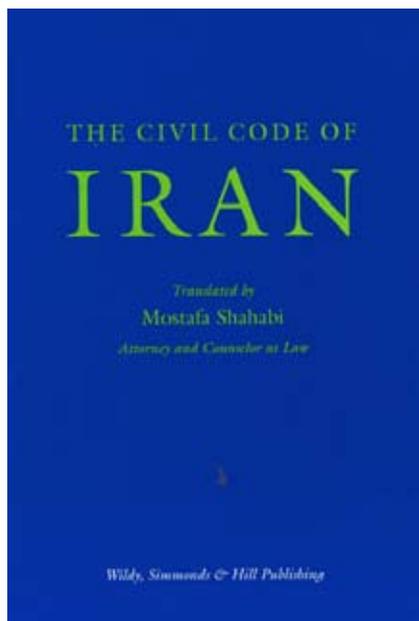

the RSS under review and to ensure compliance with its terms. The book includes the most important cases that have occurred since the publication of the ninth edition in 2005, and in particular the cases decided under the Planning and Compulsory Purchase Act 2004. The book also considers the impact that the Human Rights Act 1998 has had on overall planning strategy as well as on local development plans, including those decisions based on Article 8 (Right to Respect for Privacy and Family Life). It also looks forward to the changes to the planning system suggested in the White Paper, *Planning for a Sustainable Future*.
